Year 8 Introduction

Dear Parent(s) and/or Carer(s) of Eight Bingham

Welcome back to a new year at St. Olave's Grammar School for you and your son. I am really very pleased to continue in my role as your son's Form Tutor; in this role I aim to provide your son with every support from day-to-day administration to helping him cope with any challenges he may come across during this year.

I hope that your son is going to have a very happy and interesting time in Year Eight where he will make new friends, reinforce old friendships, learn new ideas, refine old ones and meet new challenges. I would hope and encourage both him and yourselves to make contact with me if you have any worries or concerns about your son's life at school from academic issues to extra-curricular and social elements. Additionally, if you have any changes of circumstances domestically, please do inform me at the earliest opportunity. I am easily contactable by email, telephone and letter or a note in your son's planner and will reply to your message as soon as possible.

This will be my fourth year at Saint Olave's teaching Science and Chemistry. I am teaching 8B Science this year in addition to PSHE and am looking forward to getting to know them better as I spend more time teaching them.

Please do also let me know about any of your son's achievements, successes and activities done outside of School (including over the Summer Holidays).

Yours sincerely,

Stephanie Difford

Science Co-ordinator for KS3
