Dear Parents/Carers and Students

Please find attached a revision checklist to help your son prepare for his Year 10 End of Year Examination. The Year 10 Physics examination will last for 90 minutes and will be scheduled in the week beginning Monday, 20th May 2019.

He should use the checklist prior to revising a topic and revisit it afterwards to monitor his progress and learning. The examination will be based on course content covered in Years 9 and 10, with the majority of marks awarded for Year 10 content.

There are two lists of equations attached. These are the equations that the students will be given on a data sheet in the examination, and those that the students are expected to know. Students should not worry about unfamiliar equations as these will be covered in Year 11.

Yours faithfully

Dr Neil Stewart
Head of Science Faculty/Head of Physics
