Dear Parents/Carers and Year 12 Students

RE: Maths - Summer Revision Assignment

On 24<sup>th</sup> August, the Maths Department will set a maths assignment on Teams which should be completed by students before the start of term on the 3<sup>rd</sup> of September. This assignment will enable students to revise the bulk of work covered since lockdown and will assist them to review and refresh their knowledge while identifying any gaps they may have.

In September students should bring the completed assignment packs to each maths lesson. Teachers will run through the mark scheme in class while students mark their work. Teachers will then collect scores and use the data provided to inform a programme of intervention during the first weeks of the Autumn Term. Further intervention will take place throughout the year as topics covered in lockdown are encountered again or are built upon.

I would ask parents to support students by reminding them to complete this work in readiness for the start of the Autumn Term.

Yours sincerely

Miss M Lawrence  
Head of Mathematics and Computing Faculty
